

# MYANMAR

Update as at 30 June 2022

**Note:** This network has been facing very severe political challenges since the 2020 Report due to the military coup and its aftermath. There is much disruption in communication so that contact and continuing regular meetings for the local group is hard. Even their own ministry and personal situations are hampered by difficulties. Members and invited pastors have attended the once-in-two months Academy “Live” Seminars when they can. The Country Leader has updated the situation through email as much as possible. But internet and web connections have also been seriously affected, especially in recent months. However there is at least one new member who has joined in spite of these obstacles. This is surely God’s grace at work.

The Report below reflects the situation as it was in 2020.

## Current Network: Country Network

### Total Number of Local Groups = 1

Local Groups are groups of members who meet monthly within their locality to study and minister the Word, to pray, and to fellowship.

### Total Group Members = 0

Group Members are churches or Christian organisations that join the Mission as a group.

### Total Ministry Members = 21

Ministry Members are pastors, church leaders, evangelists, missionaries, and similar persons in Christian ministry who join personally
